Exploring Canadian geography

Grade 9 · Answer Sheet C

Name: _____

Date: _____

Part 1

1. **d) Overfishing had made the cod stock collapse** — Why did the government close the northern cod fishery in 1992?
2. **a) Ice sheets scraped away most of the soil, leaving thin soil over rock** — Why is the Canadian Shield poor for farming?
3. **c) Mount Logan, in Yukon** — What is Canada's highest mountain?
4. **a) About 5%** — About what share of Canada's population was Indigenous in 2021?
5. **d) In Alberta's oil sands** — Where is most of Canada's oil?
6. **a) A city spreading outward onto farmland and natural areas** — What is urban sprawl?

Part 2

3 — Newfoundland joins Canada (1949)

5 — Canada's worst wildfire season on record (2023)

4 — Nunavut becomes a territory (1999)

2 — Banff's hot springs are protected, the start of Canada's national parks (1885)

1 — British Columbia joins, with the promise of a railway (1871)

Part 3

Describe two changes that would make your own neighbourhood more liveable, and explain why.

A good answer mentions: A good answer names real features and gives a reason for each, for example: more trees (shade, cooler summers, cleaner air); safe bike lanes or sidewalks (exercise, less traffic); a bus route or transit stop (people without cars can reach jobs and schools); affordable housing near shops; a park or community centre; protecting a wetland from flooding.
